Cat® Well Service Pumps

For the Oil & Gas Industry

Well Constructed

PUT US TO WORK

GET THE RIGHT PUMP FOR THE JOB. WHEN YOU NEED A WELL SERVICE PUMP, OUR FULL LINE HAS YOU COVERED.

Standard Features

STAINLESS STEEL FLUID ENDS

- · All XD geometric benefits
- Improved corrosion resistance, particularly in recycled water applications
- · Improved resistance to stress corrosion cracking
- Optimized autofrettage parameters specifically for stainless steel material
- Fully interchangeable with existing Caterpillar carbon steel product line
- · Reduced total cost of ownership

FLUID ENDS

- · Increased durability of fluid ends to decrease downtime
- Full line of 8" and 10" fluid ends for application flexibility
- Dimensionally compatible fluid ends with industry standard 8" and 10" stroke power ends
- Valve-over-valve design to simplify valve, seat, and plunger installation
- Polypak seals for more reliable sealing at suction cover and discharge flanges
- Components designed to maximize interchangeability across our fluid end line and industry standard fluid ends

POWER ENDS

- Industry standard footprint ready to integrate into existing well service trailer designs
- Reverse helical pinion and bull gear design for great reliability
- Fully welded structure with additional internal supports
- Two-piece stay rod design pre-tensioned stay rod lowers cyclic loading and fatigue stress
- Nose plate-to-frame design includes an enhanced interlocking design, which increases the structural strength.
- Forged or fabricated bull gears no cast material
- One-piece forged crankshaft
