

Quarry & Mining

brigade-electronics.ca

Keeping workers safe in mining and quarry sites is a challenging yet necessary task. These industries operate in tough environments, and large mobile plants can pose a danger to site works if legislation and health and safety procedures are not adhered to.

Incidents and problems can include:

- Collisions due to rear, front and side blind spots,
- Collisions due to poor visibility (darkness, fog, dust etc.)
- Site workers being struck by vehicles and mobile machines
- Ear defenders reducing site workers' ability to clearly hear approaching vehicles
- Beeping reversing alarms being ignored by site workers

About us:

Brigade Electronics is a market leader of safety devices, with solutions to suit all on and off-road vehicles.

Brigade's complementary range of safety devices help prevent collisions by assisting the driver while protecting workers, pedestrians, and cyclists.

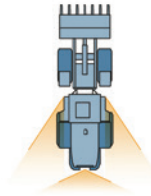

““It gives me extra confidence knowing the radar will alert me to an obstacle.”

Simon Carter, General Manager, Sheerness Recycling

Wheel Loader

Brigade's range of safety systems meet a host of Health and Safety and legislative requirements. Designed to assist the driver, workers, and vulnerable road users they can eliminate blind spots, prevent costly vehicle damage, and more importantly save lives.

Cameras & Monitors

- In-cab monitor
- Left side camera
- Right side camera
- Reversing camera

bbs-tek® Alarms

- White sound® reversing alarm

Benefits include:

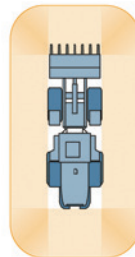

- All-round visibility for safer, faster operation
- Fewer noise complaints
- Reduced accidents and fatalities
- Reduced insurance premiums
- False claim prevention
- Reduced vehicle downtime
- Peace of mind for management and workers
- Strengthened reputation in the community

Safety recommendations for typical vehicle type. Selected products may change to suit different applications.

Backsense® Radar

- Rear obstacle detection

Backeye®360

- 360° camera system (replaces all other listed cameras)
